

BUTTERFISH

Scientific name: *Peprilus Spp*
Origin / Catching area: Brazil - FAO 41
Presentation: WR (Whole round)
Classification: 100-200g / 200-400g / 400g up
Packing: Block or IQF - Master box: 11,34kg - 25lb

YELLOW CROAKER

Scientific name: *Micropogonias Furnieri*
Origin / Catching area: Brazil - FAO 41
Presentation: WR (Whole round)
Classification: 100-300g / 300-500g / 500-800g / 00-1000g
Packing WR: Block or IQF - Master box: 10kg

WHITE CROAKER

Scientific name: *Umbrina Canosai*
Origin / Catching area: Brazil - FAO 41
Presentation: WR (Whole round)
Classification: 100-200g / 200-400g / 400g up
Packing WR: Block or IQF - Master box: 10kg

ATLANTIC BUMPER

Scientific name: *Choloroscombrus Chrysurus*
Origin / Catching area: Brazil - FAO 41
Presentation: WR (Whole round)
Classification: 3-4ppk / 4-7ppk / 8-10ppk / 10-12ppk
Packing: Block or IQF - Master box: 10kg

YELLOW CROAKER

Scientific name: *Micropogonias Furnieri*
Presentation: HG (Headed and Guttled) / Pan Ready (tail and dorsal fin trimmed)
Classification: 5-8oz / 8-16 oz / 16-24oz / 24-32oz / 32 up
Packing Pan Ready : IQF - Master box: 11,34 kg - 25

WHITE CROAKER

Scientific name: *Umbrina Canosai*
Presentation: HG-Pan Ready (Headed, Guttled, Scaled, Cleaned and all fins removed)
Classification: 5-8oz / 8-16oz / 16-24oz / 24oz up
Packing : IQF - Master box: 11,34 kg - 25lb

BLUE RUNNER

Scientific Name: *Caranx Latus / Crysos*
Origin/Catching Area: Brazil - FAO 41
Presentation: WR (Whole round)
Classification: 200-300g / 300-500g / 500g up
Packing: Block or IQF - Master box: 10kg

BLUEFISH

Scientific name: *Pomatomus Saltatrix*
Origin / Catching area: Brazil - FAO 41
Presentation: WR (Whole Round)
Classification: 300-500g / 500g up
Packing: Block or IQF - Master box: 10kg

MACKEREL

Scientific name: *Scomber Japonicus*
Origin / Catching area: Brazil - FAO 41
Presentation: WR (Whole round)
Classification: 200-300g / 300-500g
Packing: Block or IQF - Master box: 10kg

About Us

Ms Luzitania was established in 2008 in Navegantes, Santa Catarina, which is Brazil's fishing industrial center. The company produces, processes, and packages frozen fish. It collaborates with national and international distribution chains, importing and exporting different products.

The company prioritizes product quality, offering consumers fresh, high-quality fish that values the region's production and the sea's offerings.

Believing in the fishing sector, the company has modernized and improved its production processes. It has invested in the cold chain with automated freezing belts, industrial automation for automatic packaging, integrated control systems, and staff training.

The industrial area of the establishment currently covers 4,000m² out of a total area of 9,000m², with a production capacity of 500 tons of processed fish per month.

Our products are inspected and audited by the Animal Products Inspection Department of the Ministry of Agriculture under the registration number SIF 4404.

The staff is trained to meet all the requirements and standards of the industrial processes that ensure the safety of our food products and the manufacturing processes are closely monitored to ensure traceability at every stage. We are constantly evolving and preparing to obtain the main certifications in the segment.

Our goal is to sustain growth while preserving our reputation and maintaining strong partnerships with customers around the world.

We have built our history on sustainable fishing practices that meet today's needs without compromising the capacity of future generations.
